

## Finance

*A major trading entity announces that they are imposing a 30 percent tariff on steel imports to protect domestic producers. This announcement is met with outrage and trading partners are discussing plans for possible retaliatory actions. With a possible trade war looming, lack of information can be a barrier to appropriate financial strategies. While many investors are burdened with inadequate and haphazard searches for news on the evolving trade situation, getting the latest developments need not be taxing.*

Comtex's **Finance CustomWire** will supply your customers with real-time news, reports and analysis focused on U.S. market activities and international events related to trade and economic policies. Your customers will be the first to have breaking reports on legislative policies, international trade deals and disputes, as well as events occurring across the globe that affect economic growth.

The **Finance CustomWire** is powered by content from such financial heavyweights as **JAG-Notes.com** and **Dow Jones** as well as the well-known global publishers including **Financial Wire**. With it's broad range of coverage and non-stop delivery, the **Finance CustomWire** provides your clients with targeted cutting edge analysis and critical news that will allow them to assess the imposing world of finance.

Make it your mission to help your clients leverage information content into an improved bottom line. Give your clients Comtex's **Finance CustomWire** today.
