

Middle East

Attempting to energize economic development and stock market activity, the government of a major Middle East nation has adopted a more hands off approach for dealing with the financial and industrial sectors. This announcement sends shock waves throughout the business world as investors and entrepreneurs dream of the profits to be made from access to such a market. A few, who learned of the groundbreaking announcement within minutes of the event, are fiercely buying into the most promising endeavors, while the competition still sleeps. Would your clients be caught napping as well?
