

## Technology

*A major network manufacturing company announces they have just successfully tested their new high-speed Ethernet network, placing the company as the frontrunner for a major multi-million-dollar contract to build a new network in China. In an industry where "faster is better," timely information is critical. As many investors are slowly assessing the impact of the announcement, your customers could be moving with lightening speed--buying up shares before the stock price skyrockets.*

The **Technology CustomWire** provides your customers with real-time, non-stop news reports, focusing on all aspects of the tech industry including the latest in breakthrough technology solutions, e-commerce innovation, up-and-coming companies, privacy protection initiatives, news applications, and cutting edge advancements in computers, data communications, telecommunications and the Internet.

Comtex's **Technology CustomWire** is a comprehensive offering of news from more than 500 diverse national and international publishers including technology focused news providers, such as **DMEurope**.

While the competition is lagging behind, your clients could be quickly profiting from Comtex's **Technology CustomWire** content. With the bottom line at stake, your clients deserve to be up-to-speed with the fast-moving tech industry.
